

Programme

AFTER A FEW YEARS OF SAILING in the Vistula Delta and Puck Bay, the event we call Raid Poland moves west to the Odra Delta and the Szczecin Lagoon. These waters are rather shallow, which can make them rough in Force 3 winds and upwards. So there's a chance we might not reach the harbour of Nowe Warpno in 4 days.

We have to be flexible then, and tent camping is preferred. The last overnight stop is intended to be in Szczecin like the first, as it would be good to get there by land from the last harbour in order to drive back to the boats with cars and trailers (or to airports in the case of those not towing a dinghy) on the morning of May 31.

The distances are measured from the chart, but you have to expect them to be longer in reality, especially the 1st leg across the Dabie Lake, because of the many fishing nets which are set there.

As usual, it's a non-commercial event managed by volunteers, so everybody pays directly to providers for his/her food, accommodation, boats if rented, etc. We don't engage safety or baggage boats. If you wish to know more please contact Wojtek Baginski at raidpoland@gmail.com *WB*

Raid Poland 2015, May 26 ~ May 31

- May 26 Tue Logistics day (arrive and overnight in Szczecin)
- May 27 Wed Sailing day, passage to Lubczyna
